# IWRP Preferred Strategy and Contingency Actions

\*Minimum of 6,000 acre-ft from infill; additional recycling potential to be pursued jointly with wastewater agencies.

# Integrated Water Resources Plan

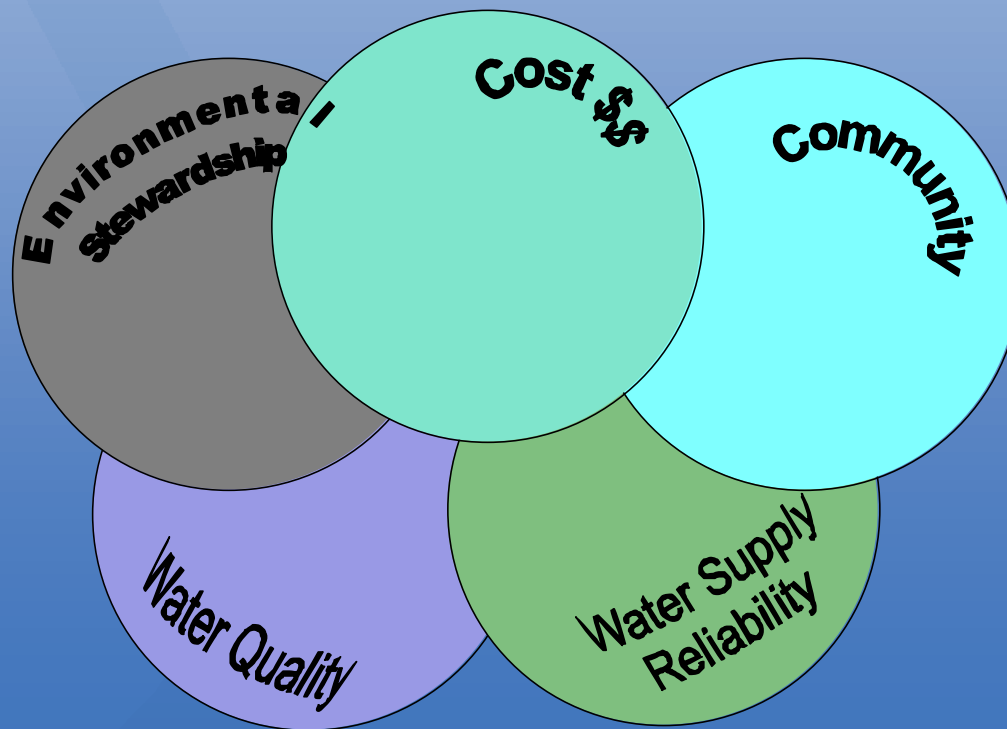

## IWRP Update 2002

# Purpose of IWRP 2002

The purpose of the IWRP is to develop a flexible, long-term, comprehensive water supply plan for the County through the year 2040.

Key considerations include:

# Draft Planning Objectives

1. Ensure supply reliability
2. Ensure supply diversity
3. Ensure water quality
4. Minimize cost impacts
5. Maximize adaptability
6. Protect the natural environment
7. Enhance community benefits
